

Post Activity Detail W6VAGIACLT001

The screenshot displays a web browser window with a URL bar showing a "Not secure" connection to <https://w6wvc001.myl.com/ui/webconsole.html?vmId=vm-91405&vmName=W6VAGIACLT001&...>. The browser's address bar and tabs are visible at the top. Below the browser window, a Windows Server 2019 desktop environment is shown. The desktop background is dark blue. The taskbar at the bottom contains various application icons, including File Explorer, Microsoft Edge, and several other utilities. The system tray on the right shows the time as 5:59 PM on Monday, 30-Sep-24. The main content area of the web console displays the "System" page of the Windows Control Panel. The page title is "System" and the subtitle is "View basic information about your computer". The page is divided into several sections: "Windows edition" showing "Windows Server 2019 Standard", "System" showing hardware details like "Intel(R) Xeon(R) Gold 6248R CPU @ 3.10GHz", "Computer name, domain, and workgroup settings" showing "w6vagiactp001", and "Windows activation" showing "Windows is activated". The page also includes links for "Change settings" and "Change product key".
